

ASEEM KISHORE

Content Strategy & Editorial Operations Leader

Digital Publishing Founder | AI & Product Builder

Clarksville, Maryland | hello@aseemkishore.com | aseemkishore.com

SUMMARY

For nearly two decades I have built and operated technology publications, led distributed teams of writers and editors, grown audiences to millions of monthly readers, and developed the editorial systems that make quality content scalable. Today I also build AI-assisted workflows and SaaS products at the intersection of content, technology, and business.

SELECTED RESULTS

Since 2007 â Building and operating digital publications.

7-8M+ â Monthly pageviews across the portfolio at its peak (approximate).

35+ â Writers, editors, and contractors recruited and managed.

4,500+ â Technology articles across the portfolio.

5 â Major technology publications built and operated.

EXPERIENCE

Founder | PositionTracker | Sep 2025 - Present

Direct, design, and iterate on a SaaS dashboard for stock and options positions using AI-assisted development. Product concept, workflows, interface, financial data, Clerk, Neon Postgres, Stripe, Vercel, and GitHub release habits.

Founder & Head of Digital Publishing and Content Operations

AK Internet Consulting | May 2010 - Present

Publishing activity began in 2007; the company is listed from 2010.

- Built and operated five technology publications.
- Reached approximately 7-8 million monthly pageviews at peak.
- Recruited and led 35+ writers, editors, and contractors.
- Oversaw a library of 4,500+ technology articles.
- Directed editorial strategy, calendars, standards, editing, and QC.
- Used SEO, audience, and revenue data to guide investment.
- Developed advertising, affiliate, and audience programs.
- Managed WordPress infrastructure for high-traffic sites.
- Introduced AI-assisted research, editorial, and development workflows.

Founder and Editor-in-Chief | Online Tech Tips | Mar 2007 - Present

Started the flagship publication while working in IT; moved to full-time operation in 2010. Set the editorial point of view and later the contributor system that scaled beyond a single author.
